

Two full-time grants for PhD candidates 2012–2015

Télécom SudParis, in collaboration with the Spanish Research Group on *Testing and Performance Evaluation*, offers two grants for PhD candidates on the following topics:

- Modeling and validation of embedded systems for the European Train Control System.
- Modeling and validation of security policies.

Language

Proficient spoken and written English is required at the time of application. No knowledge of French is required.

Grant period

The selected candidates will begin their assignments in Paris in October 2012. Alternate start dates will not be considered except in the most extraordinary circumstances. At the end of the 36 months grant period, the candidate is expected to obtain a PhD degree. In addition to a competitive salary, the candidates will receive all the necessary funds to attend relevant International Conferences, Summer Schools, Workshops, Seminars and the computer equipment needed to carry out his research.

Candidate profile

Applicants should be EU citizens and either hold a Master's Degree in Computer Science or expect to conclude one before the grant starts.

Applicants must email a curriculum vitae to César Andrés at c.andres@fdi.ucm.es.
