

PRACTICAL TRAINING (2011-2012)

NORTHERN RESEARCH INSTITUTE (NORWAY)

The Northern Research Institute, www.norut.no, from Tromsø (Norway) is offering internships positions for students who are willing to make their “Proyecto Fin de Carrera” (Ing. Informática or Master) abroad. We offer:

- Integration in a multidisciplinary research group working in different areas of ICT applied to health, media distribution, education and aeronautics
- The student will participate in national and international projects related to health social media, eHealth and mobile health among others.
 - <http://www.slideshare.net/luis.luque/ehealth-norut-catedra-sevilla>
- The student will receive up to 1000 Euros monthly for living expenses, in addition to free housing and travel. These expenses may be covered by an Erasmus grant, FIDETIA grant, etc.
- Period of 4 – 9 months, preferably to make master thesis

Required skills are fluent English, creativity and interest for research. Students interested to participate must send their CV and short interest letter (max 1 page) in English to luis.luque@norut.no before **15th of April 2011**. The email must indicate the desired period for the stay.

This training program is done in collaboration with FIDETIA and the Cátedra Telefónica “Inteligencia en la Red”. An information day will take place at the ETS de Ingeniería Informática of the University of Sevilla the **12th of April**.
