

# Practical Training in a research institute for the course 2009-2010

Norut, [www.norut.no](http://www.norut.no), is a Norwegian multi disciplinary research institute located in Tromsø with over 100 employees working in different research areas. Norut's ICT research department is doing research in the following areas:

- Personal e-health systems: we work closely with the Norwegian Centre for Telemedicine (NST) within the area of eHealth, and are a founding partner of Tromsø Telemedicine Laboratory (<http://www.telemed.no/ttl>)
- Serious game technology and e-learning
- Robust and seamless communication services and web technology
- Peer-to-peer technology and digital media distribution
- Open Internet based geo-spatial information systems
- Distributed and self-configuring data storage systems

## Is this for you?

We are looking for highly motivated and **creative** students finishing their degrees in Ingeniería Superior Informática or a master level education. They should have a good level of English, both written and spoken.

## What we offer:

We offer a trainee position (4 or 6 months) for the course 2009-2010 to students willing to work in research projects integrated in our multidisciplinary research group, also as a part of their Proyecto Fin de Carrera. Examples of areas:

- Virtual Worlds (e.g. Second Life) integrated with sensors (e.g. accelerometers) for socializing and physical exercising for rehabilitation
- Wireless Sensor Networks for environment and air quality monitoring
- Web 2.0 applications and gadgets
- Virtual communities for patients, relatives and healthcare workers
- Mobile applications for the collection and dissemination of data and information

Previous personal experience of student from Sevilla at Norut: <http://www.telemed.no/personalised-health-goes-mobile.4504254-77933.html>

The practical training position will provide you of:

- Free housing in a student resident,
- Up to 1000 Euros monthly (i.e. around 8500 Norwegian Krone) in pocket money (may be partially funded by Erasmus Practical Training)
- Turn-return flight ticket

## How to apply?

Send your CV, academic records, motivation letter and a short description of a project that you would like to do (related to the examples of areas) to [fidetia@fidetia.es](mailto:fidetia@fidetia.es) before 31<sup>st</sup> of may, but preferably before 10<sup>th</sup> of may.

**INFORMATIVE SESSION: 13 de mayo, a las 12h en el Salón de Grados de la ETS de Ingeniería Informática de Sevilla.**

More information: Luis Fernandez Luque ([luis.luque@norut.no](mailto:luis.luque@norut.no))
