

## Junior Frontend Developer (m/f)

Are you well informed about new trends and technologies with an up-to-date knowledge and understanding of how creative layouts are implemented? Are you looking for new challenges? Our open position as Junior Frontend Developer (m/f) in Seville might be just right for you.

### Job responsibilities:

- As a member of a well-established and successful team you will begin working with your new teammates and be met by exciting new challenges and development tasks from the first day on
- You will support our team with the development of innovative frontends for mobile and desktop environments
- With your creativity, logic, and structured approach, you will also learn to implement highly complex layouts and build interactive behaviors in an accessible and responsive manner

### Job benefits:

- An exciting job with good potential for future development and promotion
- Space for your own ideas and creativity
- An unlimited work contract, allowing for flexible working times
- Training opportunities with workshops
- Flat hierarchies and short reporting paths within a young, international team

### Our requirements:

- A university degree in computer sciences or related course of study
- Knowledge of HTML(5), CSS(3) and JavaScript
- Browser compatibility, accessibility and W3C-standards are no foreign to you
- Some experience with responsive web, media queries, and elastic layouts is highly desirable
- Knowledge of Drupal and the Drupal theming system is ideal
- Fluently English and Spanish
- Social competence, team spirit, and communication skills

### Who we are:

Cocomore is an agency for communication and IT with 140 employees and offices in Germany (Frankfurt/Main), Switzerland (Geneva) and Spain (Seville). Cocomore develops and services communication, commerce, and CRM solutions. Among Cocomore's clients are Nestlé, Procter & Gamble, Rossmann, RTL, SCA and Sanofi.

Cocomore AG | Gutleutstraße 30 | 60329 Frankfurt (Germany)

## PHP Software Engineer (m/f)

We need you to write beautiful, fast PHP code to a high standard, in a timely and scalable way that improves the code-base of our products in meaningful ways. You will be a part of a creative team that is responsible for all aspects of the ongoing software development from the initial specification, through to developing, testing and launching. One possible project will be the further development of a global custom solution, created on Symfony2 for one of our international clients. This work will involve close collaboration with teams around the globe.

### Key Tasks & Responsibilities:

- Write "clean", well designed code and produce detailed specifications
- Troubleshoot, test and maintain software and databases to ensure strong optimization and functionality
- Contribute in all phases of the development lifecycle and follow industry best practices
- Develop and deploy new features to facilitate related procedures and tools if necessary
- Help to improve our agile development process

### Skills & Experiences:

- 3+ years of software development experience in PHP
- Experience in up-to-date development methodologies as TDD, CCD, DDD, SOLID, KISS
- Good knowledge of Symfony 2, additional knowledge of the Zend Framework is a plus
- Demonstrable knowledge of web technologies including HTML, CSS, Javascript, AJAX
- Good knowledge of relational databases, version control tools and of developing web services
- Experience in common third-party APIs (google, facebook etc)
- Passion for best design and coding practices and a desire to develop new bold ideas
- BS/MS degree in Computer Science, Engineering or a related subject
- Social competence, teamwork and well communication skills
- Fluent in technical and business English; German language skills are helpful

### Job Benefits:

- A professional and international team of specialists supporting you with extensive industry expertise
- Teamwork, quick decisions and possibilities to grow and supply own ideas
- A challenging and engaging software development environment with exciting projects from start to end

### About Cocomore:

Cocomore is an agency for communication and IT with 140 employees and offices in Frankfurt/Main, Geneva, and Seville. Cocomore develops and runs advertising, CRM, and e-commerce solutions. Among Cocomore´s clients are Nestlé, Procter & Gamble, Rossmann, RTL, Sanofi, and the VDMA. We have completed projects in over 30 countries and we are member of the World Wide Web Consortium (W3C) and the BVDW.
